TURBO 64

COMMODORE 64

THE THRILLING 2nd GENERATION RACING CAR SIMULATION FROM LIMBIC SYSTEMS UK LTD.

Limbic Systems UK Ltd.

COMMODORE 64

TURBO 64

TURBO 64 — From the driving seat of your Formula 1 racing car you have a dynamic view of the road, with scenery flashing by and road signs hurtling towards you. In front of you the instruments: speedo, rev counter, gear shift and steering wheel put you in complete control. Smell the rubber burning and grit your teeth as you tear down the straights and scream into the bends. Test your driving ability in this multi player game of skill and daring. Joystick or Keyboard.

This program uses **PAVLODA** Loads in less than four minutes.

LOADING INSTRUCTIONS

See accompanying sheet.

HOW TO DRIVE

Joystick – see fig. 1
Keyboard – see fig. 2

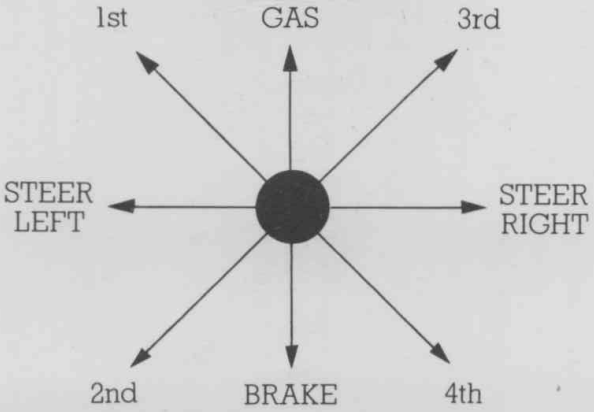
HOW TO PLAY

To select your car, race track etc. move joystick left or right and hit fire. Or with keyboard controls use keys H and K, hit J to select. Choose automatic gears, or regular shift for greater acceleration. As soon as you see the GO sign push forward with joystick or hit U to accelerate. Hit RESTORE to abort the game.

SCORING

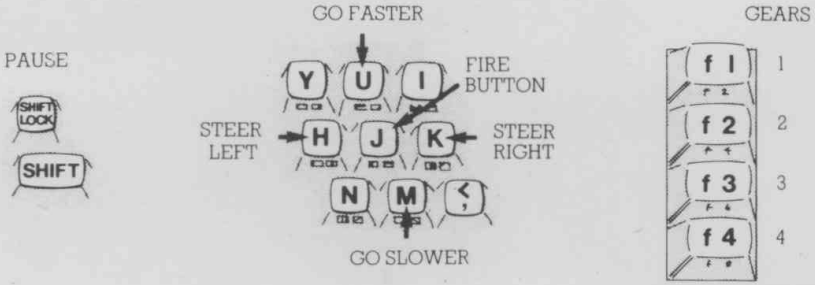
The score is based on your skill at driving around your selected track. Remember that high average speed is not everything. To score good points you must stay on the road at the right speed in an appropriate gear. You will lose points for overreving the engine as well as for crashing your car.

FIG 1 – Joystick



Hold down clutch (FIRE BUTTON) while selecting gear.

FIG 2 – Keyboard



To select hit J

Made in U.K. U.K. and European issue.
